

ABOUT US

This project concerns tolerance and respect for human rights. The results of this project will generate and disseminate positive messages aimed at achieving consistent coexistence with mutual respect for European citizens and immigrants (refugees, repatriates).

To achieve the project goals, partner institutions will look for innovative teaching methods that will be tested in this particular context. These methods will be gathered in a training package available on-line, ready for implementation and use by training centers for adults across Europe.

The REaCT project's mission is to develop and strengthen networks between adult education institutions in the EU in order to promote a culture of tolerance and acceptance of migrants. The project will increase the opportunity to learn about tolerance and diversity for new people.
